ABOUT ME

I am an IT professional with over 5+ years of experience in application development, skilled in programming languages, frameworks, and low-code platforms, specializing in Power Apps, Power Automate, Power BI, and Power Virtual Agents. I create custom apps, automate workflows, and build dashboards to meet business needs, leveraging technology to improve processes and support data-driven decisions. I excel at teamwork, leading cross-functional teams, and achieving excellent results in dynamic settings. I am eager to learn and adapt to new technologies.
